**To whom it may concern**

It is my great pleasure that I am recommending Aainball sports as a great physical activity and interesting as well as adventurous sport. The demonstration of this game was conducted at Police Head quarter of all four districts of the range, namely Vadodara Rural, Bharuch, Chhotaudepur, and Narmada with under training Lok Rakshaks participated in it. The game requires and builds stamina, concentration, agility and presence of mind amongst its players and spectators gets completely engrossed with the game through out the game enriching its entertainment prospectus as game of choice for masses. Further it is not expensive nor it require recurring expenditures. Similarly referee function and point counting system both are easy leaving no scope for any discretion and thereby gambling or satta possibility is also ruled out making it healthy sports by all means. It seems to be the best and balanced exercise option in form of game requiring the least equipments and free from rigid requirement of time, number of players and ground size marking it playable at police station level too. So it would be so nice if police department accepts and promotes this game from very beginning.
